

Dear Valued Customer,

Thank you for your recent inquiry requesting Material Safety Data Sheets (MSDS) for the VetStarch.

According to the Occupational Safety and Health Administration's (OSHA) Hazard Communication Standard, 29 CFR 1910.1200, MSDSs are required for certain hazardous chemicals. However, the Standard also provides an exclusion for "articles" as the term is defined in the Standard. The Abbott Animal Health product(s) for which you have requested MSDS information are considered articles under the Hazard Communication Standard and are exempt from the MSDS requirement. Accordingly, the Abbott Animal Health product(s) indicated in your inquiry do not require a MSDS.

Thank you for purchasing our products. Please feel free to contact our Customer Service Department, toll free at 1-888-299-7416 if you have further questions.

Sincerely,

Heidi Dahlke
Abbott Animal Health QA
