**1-888-594-5911**

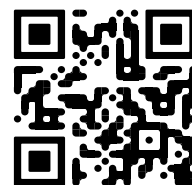

**NON-URGENT TECHNICAL SUPPORT**  
**[vetsafety@zyduslife.com](mailto:vetsafety@zyduslife.com)**

**Important Safety Information:** Robenacoxib tablets are indicated for the control of postoperative pain and inflammation associated with orthopedic surgery, ovariohysterectomy and castration, in cats. Always provide "Information for Cat Owners" Sheet with prescription. Carefully consider the potential benefits and risks of Robenacoxib tablets and other treatment options before deciding to use Robenacoxib tablets. Robenacoxib tablets should not be used in cats that have a hypersensitivity to robenacoxib or known intolerance to NSAIDs. All cats should undergo a thorough history and physical examination before the initiation of NSAID therapy. Do not administer robenacoxib tablets in conjunction with any other oral or injectable NSAID or corticosteroid. Not for use in humans. Keep this and all medications out of reach of children. Consult a physician in case of accidental ingestion by humans. For oral use in cats only.

**CAUTION:** Federal law restricts this drug to use by or on the order of a licensed veterinarian.
